for

Fall 1931

LIBRARY

RECEIVED

★ SEP 22 1931 ★

We are honestly ~~Urging~~ Department Agriculture the
BARGAIN EDITION of our new Fall Catalog.

Realizing the need of giving our customers and prospects our usual quality, true-to-name merchandise in line with prices of 1931, we offer nursery stock in BARGAIN LOTS, which will be a big saving to you.

Ordering by BARGAIN-LOT numbers gives you a wide variety of selection of the best nursery stock, packed well and shipped promptly at lowered prices.

It is BARGAIN TIME in every other line of business and the NEW HAVEN NURSERIES offer you these same good bargains in nursery stock. And you know just what you are getting when you order it from us because we are backed by 60 years of experience and a reputation for selling only the best.

New Haven Nurseries

J. BAGBY & SONS COMPANY

New Haven

Missouri

THE WAY WE DO BUSINESS WITH YOU

Terms Cash, unless otherwise agreed upon. All orders to be sent C. O. D. must be accompanied by one-fourth the amount in cash. Remit by Money Order, Cash or Check. When cash is sent be sure to Register the letter.

Order Early It is important that you order early. For the benefit of customers who wish to order early, but do not care to spare all of the money when the order is sent, we will accept early orders if 10 per cent of the amount is sent with order, and we will reserve the stock for you. Balance to be sent when you order the stock shipped.

Directions for Ordering Write name and address plainly. Always state distinctly the sizes and grades of stock ordered as per the grades given in this list. When varieties named cannot be furnished, we reserve the right to substitute such varieties as will fill the season as nearly as possible, unless prohibited in the order. If we make mistakes, they are accidental, and we wish to right them.

Prices The prices in this list are for the goods **F. O. B. New Haven, Missouri.**

15% additional must be sent when you wish your stock shipped by parcel post. Any amount not used for prepaying packages will be refunded. Owing to postal regulations trees larger than 2 to 3 feet must go by express. Write for special quotations on larger quantities than indicated in this list.

Packing All goods are packed free. Notwithstanding this fact, we use the utmost care and pack all orders, large or small, according to the distance and our customers' best interests. Everything is correctly labeled.

Our Guaranty We use the greatest care possible to have our stock true-to-name, and should any prove not true, we stand ready to replace it free of charge, or to refund the purchase price, but it is mutually agreed between the purchaser and ourselves that we shall not at any time be held responsible for any sum greater than the amount originally paid for said stock. We guarantee stock to reach customers in good condition.

All shipments will be accompanied by **Certificate of Inspection of the State Entomologist.** Good stock, true-to-name, sold direct to the planter at reasonable prices is our aim.

We solicit correspondence and personal inspection of our stock, confident that it will compare favorably with the best.

Our Location NEW HAVEN is on the Missouri Pacific railroad and also on the Missouri River, sixty-seven miles west of St. Louis. Our soil is the very best for producing well-ripened stock with splendid roots. Our facilities for prompt shipments are first class.

Complete planting directions will be sent with each order.

GET YOUR ORDER FREE!

This price list is our best agent, but we would like to offer you a means of being one of our salesmen or salesladies by having you get orders for us. And we will pay you, too. Get orders on the "Club Lot" basis. Take your neighbors' orders for stock and as soon as you receive \$25 worth of these orders we will give you 10% additional IN NURSERY STOCK. Of course, the more orders you get, the more nursery stock we send you FREE OF CHARGE. It should be very easy for you to get your own order free in this manner. All orders are put up into separate packages and all you have to do is to deliver the packages when they arrive. Try this easy way of saving money.

Save Money

By

Growing Your Own

APPLES

Apples are a real money-maker. By planting judicious selections of summer, fall and winter sorts, a constant succession of this most desirable fruit will be obtained. Our stock of apples is exceptionally good this season. All of our apples are grown on Missouri River upland, on well-branched whole roots, smooth, clean, and well grown in every respect. **No better trees can be bought for any price.**

SUMMER APPLES

Benoni. Red striped; flesh yellow and tender.

Carolina Red June. Red; flesh white.

Early Harvest. Bright straw color; flesh white.

Liveland Raspberry. White striped and marbled crimson. Flesh white; blooms late; bears young.

Yellow Transparent. Yellow skin; white flesh. A fine apple.

FALL APPLES

Grimes Golden. Medium size; golden-yellow; flesh tender, mild, sub-acid. The best fall apple.

Maiden Blush. Yellow with red blush. Bears large crops.

Wealthy. Red skin; white flesh. An early bearer.

WINTER APPLES

Ben Davis. Red striped; white flesh.
Delicious. Fruit large, nearly covered with red. Fine-grained, crisp and juicy; of fine quality.
Gano. Red cheek on yellow ground; flesh white.
Huntsman Favorite. Golden-yellow with red cheek.
Ingram. Striped bright red; flesh greenish-yellow.
Jonathan. Fruit a brilliant glossy red with spicy rich acid flavor. Succeeds everywhere.
Mammoth Black Twig. Large deep red apple. A fine-growing tree and a good keeper.
Rome Beauty. Large yellow, shaded with red.
Stayman Winesap. Fruit large deep red. A heavy producer.
Willow Twig. Large pale green, blushed with red.
Winesap. Fruit a deep red in color, fine flavor and keeps exceedingly well if put in a cool place. It is of medium size and is always in demand.

CRAB APPLES

Hyslop. Deep crimson. Large. A good keeper.
Transcendent. Yellow, striped with red. Fine for cooking.
Whitney. Large glossy green, splashed with carmine.

You Should Plant

An Assortment of These Healthy

True to Name

Peach Trees

Plant the proper peaches and realize good profits from your work. Our peaches are "the proper peaches" to buy because they are stocky, nicely headed, smooth, straight bodies, well-rooted, and are free from all disease. We are headquarters for true-to-name trees and can supply them to you at BARGAIN PRICES.

**Names of Friends Who May Be Interested in Receiving
Our Catalog:**

DISTANCE FOR PLANTING

Standard Apples.....	30 to 35 feet apart each way
Standard Pears and Strong-Growing Cherries.....	20 feet apart each way
Duke and Morello Cherries.....	18 feet apart each way
Standard Plums and Apricots.....	18 to 20 feet apart each way
Peaches.....	18 to 20 feet apart each way
Grapes.....	rows 18 to 16 feet apart, 7 to 16 feet in rows
Currants and Gooseberries.....	3 to 4 feet apart
Raspberries and Blackberries.....	3 to 4 by 5 to 7 feet apart

NUMBER OF TREES ON AN ACRE

30 feet apart each way.	50	18 feet apart each way.	135
25 feet apart each way.	70	15 feet apart each way.	205
20 feet apart each way.	110		

RULE—Multiply the distance in feet between the rows by the distance the plants are apart in the rows, and the product will be the number of square feet for each plant or hill, which, divided into the number of square feet in an acre (43,560), will give the number of plants or trees to the acre.

Proper planting and cultivation with correct pruning and spraying is the best insurance on an orchard.

SPRAY MATERIALS

Scalecide is truly the complete dormant spray. Applied in the fall it controls scale of all kinds, bud-moth, pear psylla, peach leaf-curl, and fungous cankers. The delayed dormant spray with Scalecide controls scale, aphis, pear thrips, leaf miner, case bearer, leaf roller, European red mite, bud-moth, and fungous cankers. And in addition year-after-year use of Scalecide invigorates the trees. Scalecide is guaranteed to make a better orchard than lime-sulfur.

Scalecide is pleasant to use; it does not injure even the eyes. It is non-poisonous. It saves half the labor of spraying—a tankful of dilute Scalecide goes as far as two tankfuls of dilute lime-sulfur. Scalecide saves the cost of nicotine; saves the cost of spreader; saves more than three-fourths the freight and haulage. A fifteen-gallon drum of Scalecide covers the same trees as a fifty-gallon barrel of lime-sulfur.

PROPORTIONS

For small quantities of spray solution, these figures will help you to get the proper mixture. Be accurate.

MATERIAL

Scalecide—Dilution recommended, 1 gallon to 15 gallons of water. 3 cupsful (1½ pints), equivalent for 3 gallons of water.

Sulfocide—Dilution recommended, 1 gallon to 200 gallons of water.

Four tablespoonsful (2 ounces), equivalent for 3 gallons of water.

CERTIFICATE OF NURSERY INSPECTION

No. 75.

Issued July 27, 1931.

THIS IS TO CERTIFY that, in accordance with the provisions of the Missouri Plant Act, the nursery and premises thereof belonging to New Haven Nurseries of New Haven, Mo., have been duly inspected by an authorized inspector and were found to be apparently free of injurious insect pests and plant diseases.

This certificate is not transferable and may be revoked for cause. This certificate expires September 1, 1932.

K. C. SULLIVAN, Plant Commissioner.
